World tropical sawn hardwood exports
8.0 million cubic metres

Sources: 1
2

This policy has been encouraged in countries such as Indonesia, where population pressure and overcrowding in cities. In the Brazilian Amazon it is reported that the governor has been handing out free chainsaws as a means of increasing the local people for his political party.

The rate of forest destruction is generally increasing. In the Amazon, it is the small farmers and cattle ranchers who are burning the forest. In the commercial logging areas, these people would not have been there. The small farmers are not the cause of the deforestation. The small farmers are not the cause of the deforestation. The small farmers are not the cause of the deforestation.

For tropical timber, the increasingly deforested nations has also been a contributing factor. It is not clear what proportion of forest loss can be attributed to commercial logging and to small farmers. Although estimates vary, logging itself accounts for less than 25 per cent. The world trade in tropical timber is seen as an important factor in the deforestation and destruction.

Recently the world's prime tropical timber market. Although tropical timber has been in demand in Asia. First the Philippines, Sabah, and Sarawak were plundered by the Japanese. Then Japan's appetite for tropical timber has been satisfied by the Japanese. The Japanese have been the main buyers of tropical timber. The Japanese have been the main buyers of tropical timber. The Japanese have been the main buyers of tropical timber.

Much of the fine timber imported into Japan is made into plywood and put to such wasteful uses as propping up shuttering for setting concrete. This is typical of the use of timber in Japan. It is discarded after one or two uses. But because it has been of good quality and cheap the practice continues, although it is wasteful.

In the Brazilian province of Amazonas it is reported that the governor has been handing out free chainsaws as a means of increasing the local people. This is a policy of land clearing for agriculture and settlement.

The world's tropical timber resources are being treated to many different uses. A 1980 survey of the world's tropical timber resources found that the world's tropical timber resources are being treated to many different uses. A 1980 survey of the world's tropical timber resources found that the world's tropical timber resources are being treated to many different uses.

With supplies of cheap, high quality timber from South East Asia waning, Japan is beginning to eye Brazil as a future source of wood. One of Japan's largest log importers was recently quoted as saying: "The depletion of tropical timber resources in South East Asia has led to a search for new sources of timber."

GARY HALEY

MOUNTAIN SCULPIN.

Sacramento Pike was considered of election, and so did not vote.

Salmon: "Those in favor of Sacramento Perch.—Trout, Stickleback, Viviparous Perch."

"Those in favor of Mountain Sculpin.—Prickly Sculpin, Mountain Sculpin."

Sucker did not vote. He had been elected by Sacramento Pike to vote for him, and it would be going to treason to vote for a fish having teeth in his mouth.

"Sacramento Pike is the choice of the conclave. He will please come forward and take charge of the meeting."

And all the minnows stood on their heads and tapped their fins in applause as Sacramento Pike took the place of Quinnet Salmon.

Chairman (gaping his mouth in acknowledgment of the honor accorded him, whereupon Roach and Dace swam to the grassy shore): "The purpose of this meeting is to refresh our knowledge of each other (the trout, sculpin, and Dace thought they were already too well known by the minnows) and to introduce new members, and to provide for the future of the basin. According to custom, each species, through its representative, will give an account of itself, and state what it has taken up their residence in the basin since the last meeting, and bring up any other matter that may come under consideration. You will please speak, with due regard to the order in which your names occur in the list. Check-list. The time is now at your disposal."

WESTERN SUCKER.

Western Sucker: "You may always know me by my big warty lips. Only suckers have such lips, and my species is the only sucker that travels over the entire Sacramento Basin; therefore I need give no further description of myself."

the Council discussed this for about 95 minutes before voting unanimously to send a letter to Caltrans asking that the highway be stopped in Trilled Creek. Caltrans responded by agreeing to cut down the chemical use. It's not clear what we wanted but it's a start to a hopefully not so long struggle to rid the community and ultimately the earth of toxic health damaging, environment-damaging chemicals. Anyone interested in working to stop pesticide spraying, please contact Roseanne Hatfield 677-8124, home 677-3142, or Cindy Taylor, 677-3142.

A black and white photograph of a wooden sign. The sign has a decorative border and the text "NORTH BAY LOCK" is prominently displayed in the center. The background of the sign appears to be a textured, possibly stone or wood, surface. The sign is mounted on a wall, and the overall image is grainy and high-contrast.

Drugs, U.S.A.

The 1984 report of the Senate Select Committee on Drug Abuse, headed by Sen. Charles Stennis of Miss., says the heroin market in the United States is worth \$1 billion a year. The report also says that the U.S. has provided some \$100 million in official government aid to the heroin-producing countries of the Middle East and South America since the 1970s. The report says that the U.S. has provided some \$100 million in official government aid to the heroin-producing countries of the Middle East and South America since the 1970s. The report says that the U.S. has provided some \$100 million in official government aid to the heroin-producing countries of the Middle East and South America since the 1970s.

The report also says that the U.S. has provided some \$100 million in official government aid to the heroin-producing countries of the Middle East and South America since the 1970s. The report says that the U.S. has provided some \$100 million in official government aid to the heroin-producing countries of the Middle East and South America since the 1970s.
